ABOUT US

If you are thinking of travelling to Spain with your students, the Instituto San Fernando organizes everything for you so that you don't have to worry about anything.

Since 1996 ISF organizes Educational Programmes personally created for students of all ages and courses.

Our programmes include both classes outside and inside the classroom, as well as a series of activities aimed at the total immersion of the students in the Spanish culture in general and more specifically in the lifestyle of the city they are visiting.

To make your stay an unforgettable experience, we take care of every detail from the beginning to the end of your journey: accommodation, transfer service from the point of arrival to the city of destination and back, health insurance, 24 hours telephone support, etc.

Our students won't have to worry about anything except learn and enjoy their stay!

ADVANTAGES OF ISF

MUCH MORE THAN JUST SPANISH

Language classes are adapted to suit all levels, as well as to specific students' needs: tourism, trade, etc. Consult us!

ACCOMPANYING TEACHERS

We have special conditions for accompanying teachers. Ask us for further information when you apply for your budget.

FLEXIBILITY

It's not necessary to arrive on the weekend. We can adapt the programme to the dates and contents preferred by the students.

SUPPORT FROM THE BEGINNING TO THE END

We accompany you from your arrival till your departure. During your stay you will always have 24 hours telephone support and the assistance of our coordinators.

DIFFERENT
PROGRAMMES

1. ISF can arrange the purchase of flight tickets. We recommend you to book them at least four months in advance.
2. We offer a wide range of optional services in all our destinations (transfers, excursions, activities/visits, insurance, etc.)
3. Once your booking is confirmed, we will organize an informative meeting at your school for the parents and students participating in the programme.

IMPORTANT

SUGGESTIONS

BOOK IN ADVANCE

Book at least four months in advance if you are planning to travel in spring or summer. And try to avoid the weekends and holidays, etc.

ALLERGIES AND MEDICINES

Please, let us know if someone in the group has special dietary needs or any accommodation requirements so that we can attend to their needs adequately.

CONFIRM DETAILS AND DATES

Before leaving home, please confirm with us the details and dates of your flight tickets.

CHECK YOUR TRAVEL DOCUMENTS

Make sure that you and your students have all the needed travel documents valid: passports, visas, etc.

GRANADA

At the foot of Sierra Nevada you will find one of the most beautiful cities in Andalusia. It gathers architectural jewels of the Renaissance as well as the most modern and innovative buildings and structures of the 21st century.

As the last city reconquered by the Catholic Monarchs in 1492, Granada has a wonderful Arabic heritage. Its gastronomy, craftsmanship and urbanism are a consequence of the city's glorious history.

Walking through beautiful gardens and charming streets takes us back in time, breathing centuries of history and grandeur.

COMBINE TWO CITIES FOR YOUR STAY!

I AM DREAMING OF...

SEVILLE,

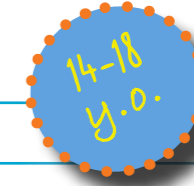

Seville is where all the Spanish topics can be found: flamenco, bullfighting, Don Juan, Carmen, Semana Santa and the Feria de Abril. Seville, with its great past, was the centre of the Spanish Empire, famous for its unique splendour incomparable to any other city. Seville also represents the future, it is a modern city, open to progress, especially since 1992, when it hosted the last Expo of the 20th century.

But without any doubt, the best attraction of Seville is its people, always willing to help visitors and delighted to share their joy and local traditions.

CÁDIZ

SUMMER

CÁDIZ

Summer is one of the best times to discover Cádiz.

The city opens to every visitor who comes to spend their holidays there and offers the best of itself:

exhibitions, open air cinemas, gastronomic routes ... All accompanied by the good atmosphere, the usual kindness that characterizes the people of Cadiz and its wonderful beaches.

SUMMER

VALENCIA

Valencia offers the best of the big cities as well as the coastal cities.

Its cultural offer is varied throughout the whole year, being its main point of attraction, the City of Arts and Sciences.

In summer the city also counts on the appeal of the Malvarrosa beach, outdoor activities and visits to nearby cities of interest.

SUMMER

MÁLAGA

As the capital of the Costa del Sol, Málaga boasts one of the best microclimates in Europe and offers one of the best equipped beaches in southern Spain. Málaga offers the best of the big cities as well as the coastal cities, making it one of the best options to spend the summer.

Thanks to its privileged location, you can visit beautiful towns such as Ronda, Granada or Nerja.

Enjoy a stay combining fun, culture and making new friends!

SUMMER

GRAN CANARIA

The largest city in the Canarian archipelago provides a great cultural offer and excellent beaches with crystal clear waters.

Gran Canaria is closely linked to the history of Latin America. Therefore they are sharing a lot of customs and gastronomic traditions. Come and enjoy it!

PROFESSIONAL EXPERIENCES

15 to 21 years old

The Professional Experience Programme allows students to have a first contact with the working world and the business sector in Spain. Students will also learn specific vocabulary of the trade and business management sectors.

Through our Professional Experience Programme we are not only intending to help students to choose the profession they might be interested in, we are also planning on showing them how to become part of the working team or how to start their own company. Specialized Spanish classes are combined with visits to real companies where the students have the possibility to ask questions, to make interviews and to have a first-hand perception of the business sector in Spain.

ISF - QUALITY ASSURANCE

Instituto San Fernando has a wide experience in the design and development of Professional Programs in Spain.

We are the Spanish partner of numerous institutions linked to Erasmus+ and we collaborate locally, in each of the 11 offered cities, with a large number of companies from various professional sectors.

We adapt the programmes to the specific needs as well as to the different educational itineraries.

BENEFITS

HAVING A FIRST CONTACT WITH THE PROFESSIONAL AND FINANCIAL WORLD / CREATING A NETWORK OF CONTACTS IN THE WORKING WORLD / LEARNING SPECIFIC VOCABULARY OF THE SECTOR / GET TO KNOW THE REALITY OF THE FINANCIAL SECTOR IN SPAIN / DEVELOPING STUDENT'S AUTONOMY / ACQUIRING IMPORTANT FINANCIAL CONCEPTS / HAVING AN INTERNATIONAL CV / ACHIEVING A GLOBAL VISION OF THE BUSINESS WORLD AND THE FINANCIAL SECTOR

AGENDA 2030

SUSTAINABLE DEVELOPMENT GOALS

At Instituto San Fernando we are very aware of the social changes we are facing and especially those that will take place during the next decades. Together we must make a great effort to prepare our young people for the new challenges they will face. Therefore, we have designed this programme to provide or update the knowledge of our students in this area.

The EU and the United Nations – common goals for a sustainable future.

The EU and the United Nations are natural partners in the efforts to shape a safer and better world for all. For this purpose, the EU supports effective multilateralism and a rules-based international order with the UN at its core. As a major negotiating success of the EU, the SDGs are a useful vehicle to project globally the EU's values and objectives, and provide a shared framework, useful for international partnerships. Consequently, it is in the EU's interest to play a leading role in the implementation of the 2030 Agenda globally through its external action.

GLOBAL CITIZENSHIP EDUCATION

At Instituto San Fernando we are highly aware of the new values and trends in the education of our young students. As the present is changing rapidly, we need to update our young generation to prepare them for a future that is much more inclusive and responsible towards society and their environment. That is why we have designed a programme that encompasses the main values of UNESCO and the European Union.

According to UNESCO Global Citizenship Education (GCED) aims to empower learners of all ages to assume active roles, both locally and globally, in building more peaceful, tolerant, inclusive and secure societies.

GCED is based on the three domains of learning - cognitive, socio-emotional and behavioural.

The European Charter for Citizenship defines education for democratic citizenship as education, training, awareness-raising, information, practices and activities that provide knowledge, skills and understanding to students and develop their attitudes and behaviour to exercise and defend their democratic rights and responsibilities in society, to appreciate diversity and to play an active role, in order to promote and protect democracy and the rule of law.

RESEARCH PROGRAMME

15 to 21 years old

We are all aware of the usefulness of technology and the infinity of its applications that makes life easier. However its continuous use “keeps asleep” human abilities and qualities such as guidance, communication with other people, imagination or the search for information in an autonomous way. Our Research Programme works on the development of the senses and abilities of our students through the realization of small projects without the use of any type of technology.

The data collection and the elaboration of the project itself will be carried out without any type of technology to simulate the capacity of our students to look for information and solutions via their senses and cognitive abilities. The projects will be based on emerging sectors and new social trends such as: civic education, sustainable trade, dependence, new urban mobility, ecology and the environment and urban ecology, etc.

ANALOGICAL INTERNSHIPS

15 to 21 years old

This programme is designed for a one week stay and aims to bring our students closer to the working world and business reality of Spain. The programme combines daily visits to companies with the development of small research projects in different incipient and innovative sectors such as alternative tourism, renewable energy, urban mobility, logistics, online commerce, sustainable urban development, new labor realities, and so on.

The daily projects will be related to areas of the world of business and work that will allow our students to know first hand basic aspects of business and employee relations.

The prices include:

20 modules of 45 minutes each, of specialized workshops and activities, 4 company visits | Classes from 8 to 15 students maximum | Daily projects | Class materials | Certificate of accomplishment | Placement test and final exams | Student ID Card | Carefully chosen home stay | *GRAN CANARIA: accommodation in flats (multi-bed rooms) with half-board (breakfast and dinner). EDUCATIONAL PROGRAMMES **ONLINE**

11 to 18 years old

We have created a great offer of online educational sessions, made with the most modern technological tools to be able to "bring Spain" to school or directly to the student's home. We use one of the best known and most intuitive platforms, so that the educational sessions are easily accessible to professors and students, without the need for special computer skills. The teacher can use the educational sessions during the lectures face to face or in a virtual way in the classroom, in case of need for distance or integrated teaching.

Each "Pack" includes educational sessions consisting of short videos that aim to motivate students, using conversational language and adapted to their age and daily habits. Furthermore, working alone is profitable: the student will have to investigate in depth the topics set out, demonstrating the research efforts made, through a complete final online exam.

We offer a very large library of Packs, with contents that include: language, culture, literature, philosophy, art, famous Spanish characters and visits to places and monuments of interest. In addition, we have a lot of professional, thematic and work-oriented content available.

+ 270 Packs consisting of 3 educational sessions each

+ 100 Thematic, Linguistic and Cultural Content

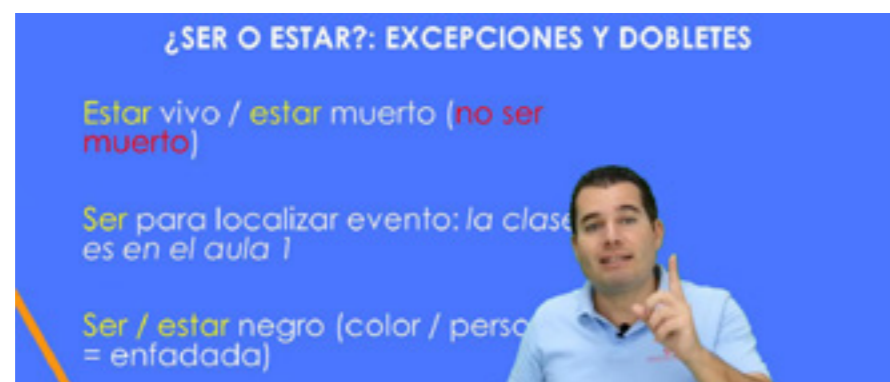

+ 100 Innovative Professional Content valid for PCTOs

+ 30 Virtual tours of cities, monuments and places of interest

VIRTUAL EDUCATIONAL STAYS

ONLINE

11 to 18 years old

For this school year, we offer you a series of virtual educational stays, consisting of educational sessions recorded and uploaded to our e-learning platform, plus live educational sessions (streaming / live), all rigorously tailor-made for middle and high school students and carried out by our mother tongue teachers. The virtual educational stays complete the Spanish lessons that our young students get in their country of origin, allowing for total immersion, albeit in a virtual form, in Spanish culture. We present a very broad and avant-garde content with the aim of examining in depth the topics covered in the curricular programmes. We will periodically add new content to our catalogue, in order to offer continuous training for students who will participate in online internships.
