About us

If you are thinking of going on a trip to Spain with your students, Instituto San Fernando organises everything so that you don't have to worry about anything.

In order to make your stay an unforgettable experience, we take care of all the details, from the beginning to the end of your trip: accommodation, transfers from the **point of arrival to the city of destination**, medical insurance and 24 hour telephone.

CULTURAL STAYS

During the Cultural Stays, the practice of the Spanish language is enhanced by using the city as an **"educational environment"**. The programs consist of workshops and educational visits always directed by our teachers so that the contents are put into practice.

The content of the program always depends on the region and the city where you are doing this program. Each **region and city has its own history and traditions**.

SEVILLE

Seville is home to all the Spanish clichés: Flamenco, Bullfighting, Don Juan, Carmen, Semana Santa and the Feria de Abril.

Seville, with its magnificent past, was the centre of the Spanish Empire, famous for a splendour to which no other city can compare.

Seville **also represents the future, it is a modern city, open to progress**, especially since 1992, when it hosted Expo'92, the last of the 20th century. But without a doubt, Seville's best attraction is its people, always ready to help visitors, and happy to share their joy and local traditions.

Quality assurance

Instituto San Fernando has a **very wide experience in the design** and development of Professional Programs in Spain. We are the Spanish partner of numerous establishments linked to **Erasmus+** and we collaborate locally, in each of the 10 cities where we are present, with a large number of companies from various professional sectors. We adapt the programs to the specific needs as well as to the different educational itineraries.

Online Education

We have created a wide range of educational sessions with the most modern technology with the intention of "bringing Spain" to the student's classroom or home. We use one of the most stable and accessible platforms so that it can be used comfortably by both the teacher and the students without the need for extensive technological knowledge.

The teacher will be able to use the sessions in the classroom or virtually in case the students have to stay at home. The sessions are short to motivate the students and we use a language adapted to their ages and habits. **We encourage independent work, with the student having to research in depth about the topics presented.**

We have a very extensive library with content on language, culture, literature, philosophy, art, famous Spanish personalities, visits to places and monuments of interest and a large amount of professional, thematic and work-related content.

+ 270 Packs composed of 3 sessions each

+ 100 Thematic, Literary and Cultural Contents

+ 100 Innovative Professional Contents

+ 30 Visits to cities, monuments and places of interest

During this academic year we propose a series of Virtual Educational Stays composed of recorded sessions and **live streaming-live sessions specially designed for high school students.**

Our Virtual Educational Stays are conducted by our **most experienced teachers, simulate an educational trip** and are intended to replace the trips that students used to make to Spain with their teachers.

We have a wide and innovative offer of contents with the intention of accompanying and enriching the Spanish classes that the students are receiving from their teachers.

Periodically we add new contents to our catalog and in a programmed way you will be able to enrich and complete your classes.
