ABOUT US

If you're thinking about taking a trip to Spain with your students, Instituto San Fernando will take care of everything so you don't have to worry about a thing.

Since 1996, ISF has been organizing educational programs specially designed for students of different ages and academic backgrounds.

Our programs include both in-class and field trips, as well as a series of activities aimed at fully immersing students in Spanish culture in general and, more specifically, in the life of the city they're visiting.

To ensure your stay is an unforgettable experience, we take care of every detail, from the beginning to the end of your trip: accommodations, transfers from your arrival point to your destination city, medical insurance, and a 24-hour hotline.

CULTURAL STAYS

The programme's content always depends on the region and city where you are taking part in the programme. Every region and city has its own history and traditions.

During the Cultural Stays, participants practise their Spanish by using the city as a 'learning environment'. The programmes consist of workshops and guided tours, always led by our teachers to ensure that the content is put into practice.

SEVILLE

14-18 YEARS

Seville is where all the Spanish clichés come together: flamenco, bullfights, Don Juan, Carmen, Holy Week and the April Fair.

Seville, with its magnificent past, was the centre of the Spanish Empire, famous for a splendour with which no other city has been able to compare.

Seville also represents the future; it is a modern city, open to progress, particularly since 1992, when it hosted Expo '92, the last of the 20th century. But without a doubt, Seville's greatest attraction is its people, who are delighted to share their joy and local traditions.

SDGS AGENDA 2030

At Instituto San Fernando, we have created a programme to educate students about the social and sustainability challenges of the future, in line with the Sustainable Development Goals (SDGs) of the 2030 Agenda. The European Union (EU) and the United Nations (UN) are working together to build a safer and more sustainable world through a multilateral approach based on international standards. The SDGs are a key tool for promoting the EU's values and objectives globally, fostering international cooperation and leading the implementation of the 2030 Agenda worldwide.

CITIZENSHIP EDUCATION

We have developed a Citizenship Education programme with the aim of preparing young people for a more inclusive, responsible society that is committed to its local community. Based on the principles of UNESCO and the European Union, the programme promotes knowledge, skills, values and attitudes that foster coexistence, justice and peace. It also encourages participation in democratic life, respect for diversity and the defence of citizens' rights and responsibilities.

LITERATURE

Our "Active Literature" course aims to introduce students to contemporary literature and show them that it manifests itself in various fields, such as music, radio, television and social media. Our methodology encourages active student participation, focusing on a deep understanding of texts, critical analysis, the development of creativity, and oral and written expression. We will work with works by leading contemporary Spanish and Latin American authors, such as Almudena Grandes, Isabel Allende, Gabriel García Márquez, Mario Vargas Llosa and Javier Cercas.

EXPERIENCE EUROPE

Our main objective is to help young people learn about the European Union, its values, how it works and the challenges it will face in the future. It also provides information on the opportunities the EU offers for studying, working, undertaking work placements or volunteering in other countries. The programme combines education about Europe with academic and career guidance, and includes weekly visits to companies involved in European projects.

'Online' education

We have created a wide range of educational sessions using state-of-the-art technology, with the aim of 'bringing Spain closer' to the classroom or the student's home. We use one of the most stable and accessible platforms, so that both teachers and students can use it comfortably without needing extensive technical knowledge.

Teachers can use the sessions in face-to-face classes or online if students need to stay at home.

The sessions are kept short to keep students engaged, and we use language that is approachable and tailored to their age and cultural background. We encourage independent study, with students undertaking in-depth research into the topics covered.

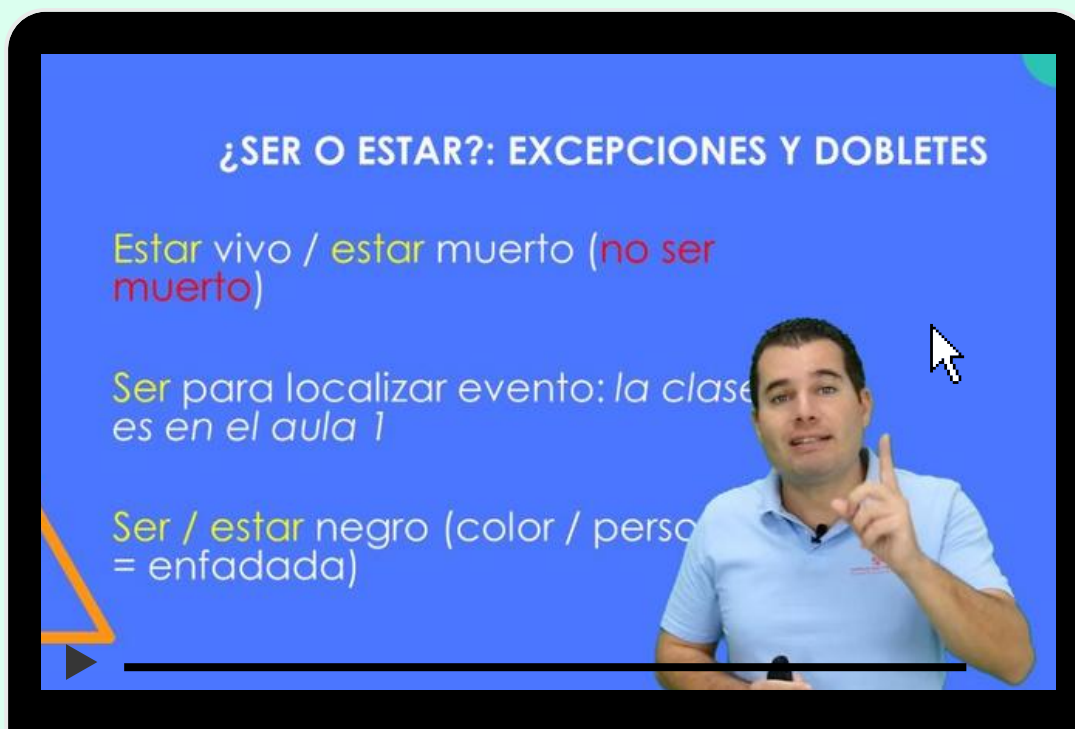

We have a very extensive library covering the following topics: language, culture, literature, philosophy, art, famous Spaniards, visits to places and monuments of interest, and a wide range of professional, thematic and work-related content.

+ 270 packages, each comprising 3 sessions

+ 100 Thematic, Literary and Cultural Topics

+ 100 innovative professional learning resources tailored to the PCTO

+ 30 visits to cities, monuments and places of interest

ONLINE

During this academic year, we are offering a series of Virtual Educational Stays comprising recorded sessions and live-streamed sessions, specially designed for secondary school pupils.

Our Virtual Educational Stays are delivered by our most experienced teachers; they simulate an educational trip and are intended to replace the trips that pupils used to make to Spain with their teachers.

We offer a wide and innovative range of content, designed to complement and enrich the Spanish lessons students are receiving from their teachers. We regularly add new content to our catalogue, and you'll be able to enrich and supplement your lessons on a scheduled basis.

INSTITUTO SAN FERNANDO

“ Instituto San Fernando is a wonderful organisation. They support you throughout every stage of the experience and organise trips and activities that are not only linguistic and cultural but also social, making them increasingly enjoyable for the students. What's more, the Institute helps you with any problems that may arise, always resolving them quickly. The group leaders are also highly qualified and know how to work with the students. Ultimately, the experience with ISF is a unique and wonderful life experience for the students. Well done!

“ It was a unique experience; the children had the chance to improve their Spanish, discover a new culture and visit some wonderful places. The lessons were interesting and lively, and Cádiz is a fantastic, peaceful and welcoming city where the sea takes centre stage. Thank you for everything!

“ We would like to express our sincere thanks to the whole school for the warm welcome we received during our stay in Spain. It has been an enriching experience for both us and our pupils. The Spanish course was very well organised and tailored to our needs. We will take away unforgettable memories of your professionalism and kindness. Thank you so much!
